## ASTROLOGY

Rev. Wendi has been called by Spirit/Divine Source to **offer her Astrology expertise to ALL who are called.**

She first began her study of Astrology in the 1960's during a course with the late Dane Rudhyar. She has continued to study Astrology, Astronomy and more since that time and is a recognized expert among her peers.

She has not offered Astrology to the public for over 20 years even though she has been constantly doing charts and reports for friends and family.

She was recently gifted with some superb Astrology calculation software which takes the extensive calculations and cross checking out of the mix and allows her to simply do

interpretations, consultations and reports from the software calculated information.

The first of the Astrological reports that she will be offering are now on the website and ready for YOU!

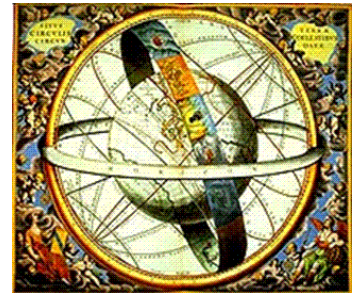

These **reports** are **highly discounted** as an **Introductory offer**—well over **50% off** in most cases, so this is a good time to get gifts whether for yourself or others.

See the detailed information on Rev. Wendi's Astrology offerings at:

If you have questions—don't hesitate to contact Rev. Wendi [wolfwoman@spiritsofnativelight.org](mailto:wolfwoman@spiritsofnativelight.org)

[spiritsofnativelight.org](http://spiritsofnativelight.org)

Superb rendering of the Earth from an Astrological viewpoint.

Rev. Wendi will be adding new Astrology services almost constantly over the new few weeks.

Among the services offered at present are some simply astounding reports such as:

- Your Spiritual Path
- Relocation/Location
- Past Lives
- Your Progressing Life

## ASTROLOGICAL HAPPENINGS

Feeling a little agitated and edgy? It can be a very tense time as energy builds with two eclipses and Pluto dancing closer and closer to the Center of the Galaxy.

This time is a wake-up call since Eclipses and Pluto bring the opportunity for deep, lasting transformation through death and rebirth.

### What is dying away in your life to make way for the new?

The Virgo Full Moon Lunar Eclipse was Tuesday, March 14. There's a layering effect with it, the Spring Equinox on March 20, the Solar Eclipse on March 29 and Pluto's approach to the center of our galaxy. We are being called to change on individual and collective fundamental levels.

To bring peace to this process of transformation, please join together with others around the world in medita-

tion, prayer and healing for the Earth and all beings upon her at the adjusted time of the eclipses in your time zone, and again at the Spring Equinox and March 29 Solar Eclipse.

Our passions may be ignited when the Sun enters Aries at the Vernal Equinox on March 20 with the Moon Square Uranus plus the Sun, Moon and Saturn forming a Grand Trine in fire signs.

The New Moon in Aries on March 29 is the beginning of the astrological new year. This is the time of the Sun/Solar eclipse which supercharges this energetic portal. As Mercury resumes forward motion, the light turns green for plans and projects.

Meanwhile, Pluto stations retrograde within hours of this eclipse and begins to travel back through Sagittarius, extending the "Pluto Dance" with the Center of

the Galaxy. During this retrograde transit Pluto assists us to clear remaining debris from the subconscious and align with our cosmic identity and destiny. Further fueling of the flames of passion and healing of old wounds is assisted by Mars in Gemini opposing Pluto in Sagittarius.

Through the end of March there is a portal of transformation which invites us to release old patterns which no longer serve us as we explore the depths of our individual and collective psyche. We are being called to move forward into a brighter future. We're experiencing a frequency shift as we and the Earth step up in vibration and enter the World of the Fifth Sun—the promise of the shift of consciousness taking place on Planet Earth.

This is a time for retreat, reflection, prayer, meditation and healing, to allow the process to unfold gracefully

**"Even a thought, even a possibility, can shatter us and transform us."**

**- Friedrich Nietzsche**

## INTEGRATING ECLIPSE ENERGIES

Make no mistake about it—you made a choice—on a Soul level - to incarnate at this time. You came into human existence to experience planetary transformation and to assist in the awakening of higher consciousness.

During eclipse periods, your experience intensifies as the Earth's electromagnetic field shifts. If you're sensitive to energies you may experience physical symptoms before, during and after the eclipses.

Headaches, dizziness or light-headedness, confusion, nausea, changes in sleep or eating patterns, bouts of depression, accidents, injuries and emotional outbursts are common during the energies of

Eclipse—we are experiencing 2 Eclipses AND Solstice.

Your life may seem out of balance or out of control as you integrate the energies and work to find your center. To ease the transformation...

- Get plenty of exercise and hydrate the body thoroughly. Especially effective are activities that connect you with the Earth—hiking, walking or running in Nature—swimming or being on natural occurring waters.

-Ground, ground, ground! Eat root vegetables and dark, leafy greens. Sleep on the Earth under the stars or sit under a tree on the roots or work in the garden. Practice yoga, sacred dance, xi gong

or t'ai chi.

- Meditate often and sleep when needed. Receive energy bodywork, including Reiki, massage, sound healing, aromatherapy and acupuncture.

-Participate in group or individual ceremony (preferably at a Sacred Site) to honor these important passages as the Sun, Moon and Earth align

- The shifting energies caused by eclipses are known to be catalysts for extreme weather events and seismic activity. Ceremony for the healing of Mother Earth and all beings helps to bring peace to the planet in changing times.
